How to use an NFC Tag:

## Step 1: Discover a device with an NFC tag.

Step 2: Unlock your smart phone.

Step 2.5: (Android Users Only): Ensure that your NFC reader is on.
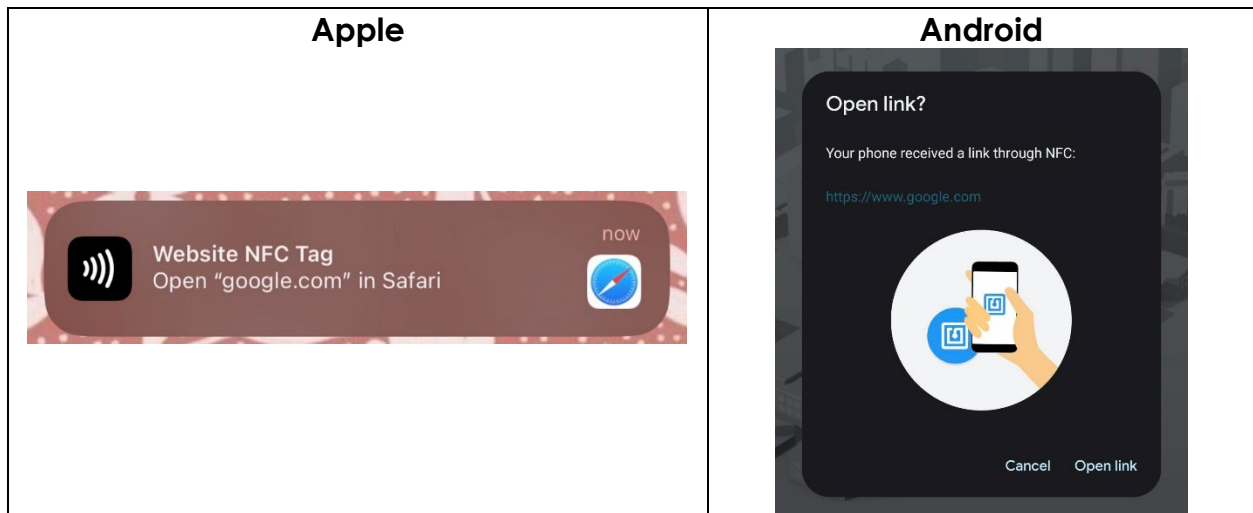

Go to settings.

Search NFC or go to Connected Devices—Connection Preferences—NFC and turn 'Use NFC' on.

Step 3: Hold your phone up to the NFC tag.

Apple	Android
Common iPhone NFC Antenna Locations	Common Android NFC Antenna Locations
iPhone NFC readers are located along the top of the phone.	Android NFC readers are located in the center back of the phone.

Step 4: Click the link that appears.

Apple	Android
Website NFC Tag Open "google.com" in Safari — now	**Open link?** Your phone received a link through NFC: https://www.google.com — Cancel Open link

Step 5: The link will take you to a webpage with the information associated with that specific NFC tag.
